OUR IMPACT

About the 2023 1t.org US Summit

The 1t.org US Chapter is a community of companies, non-profit organizations, and governments committed to creating healthy and resilient forests through the goal to conserve, restore and grow 1 trillion trees globally.

To reach this goal with unprecedented scale and speed, we need to mobilize intergenerational leadership from cities to wilderness. Our 1t.org US Community is a catalyst for raising the bar on multi-stakeholder collaboration.

The annual 1t.org US Summit is where we bring together our community of 100+ pledges to meet in-person to discuss scaling conservation and restoration globally, discover and unlock private-public sector partnerships, and spotlight innovations from our ecopreneur community that are ready to scale.

2023 1t.org US SUMMIT THEMES:

implementation

This year we are focusing on moving from ambition to action. The Summit will feature sessions with an emphasis on clear, tangible and long-lasting results.

mobilization

We will leverage the convening power of the Summit to invigorate movement building and collective impact within the restoration community.

innovation

We're unlocking innovations through the 1t.org US UpLink Challenge and our Community of Practice.. The Summit will center innovation for key challenges.

OUR TRACK RECORD

The Inaugural 1t.org US Summit

In June 2022, we brought our diverse, multi-stakeholder community together for a dynamic, in-person first-ever 1t.org US Summit that left us inspired and energized.

More than 140 attendees joined the Summit in Washington, DC. Corporate and nonprofit leaders presented their vision for scaling public and private-sector ambition, federal and state government officials share their commitments to nature-based solutions, and community representatives discussed reforestation challenges.

The 2023 1t.org US Summit will be bigger and bolder, with more opportunities for the community to contribute their ideas, challenges and solutions.

OUR PLAN

2023 Summit Logistics

We are thrilled to share the 1t.org US Summit will be hosted at the Salesforce Tower thanks to a generous donation from Salesforce.

Salesforce Tower, NYC

June 13-15, 2023

150 attendees

Summit Proposal Process

The 1t.org US pledge community will have the opportunity to submit proposals for program content. Sessions will be structured as either 45-minute panels with three to five speakers per session, or 30-minute “quick hit” talks with up to three speakers per session.

The 1t.org US Secretariat and the US Stakeholder Council will work to evaluate and select proposals. If you have questions, contact to Julie Foster at jfoster@americanforests.org.

Timeline

By March 22

Submissions will be collected from the community for session proposals.

By April 7

The Secretariat will review proposals and notify selected sessions.

End of May

The final program will be released to the attendees and speakers will be finalized.
